

Under the *Health Professions Act* and the *Speech-Language Pathologists and Audiologists Profession Regulation*, the ACSLPA Registration Committee may require an applicant to undergo examinations, testing, assessment, or additional training/education for the purpose of determining substantial equivalency of their qualifications. Completion of a period of supervised practice constitutes one such type of assessment and is typically required following successful completion of a written examination. The purpose of the supervised practice is to ensure that new registrants have the knowledge and skills required to practice their profession, while supporting and assisting them in becoming successful, independent practitioners in Alberta.

The following outlines the supervised practice plan and agreement for registrants undergoing the entry process.

Section 1 – Contact Information		
Supervisee	Name:	
Supervisor(s)	Name:	Name:

Section 2 –Supervised Practice Overview			
Start Date:		End Date:	
#Work Hours Scheduled/Week			
Definitions	<p>Direct Supervision: The supervisor is physically present within the environment or virtually present via real-time videoconferencing or audioconferencing. The supervisor is able to observe the supervisee carry out activities and can provide immediate feedback, as necessary.</p> <p>Indirect Supervision: The supervisor is not physically or virtually present when an activity is being carried out by the supervisee. The supervisor monitors and evaluates the supervisee’s performance of activities by reviewing audio/video recordings, written records, and/or through discussions with the supervisee, clients, family, team members, etc.</p>		
Conditions:	<p>The following conditions apply:</p> <ul style="list-style-type: none"> a. A practice permit with the condition that the registrant must practice under supervision will be issued for the duration of the period of supervised practice (a minimum period of the equivalent of 12 weeks of full-time work or approximately 450 hours), as per the requirements stated in the <i>ACSLPA Registration Handbook</i>. b. The period of supervised practice will allow the registrant to obtain experience in a number of areas that would be reflective of practice for their profession and to demonstrate that they meet the minimums in each area of the <i>Practice Competencies for Speech-Language Pathologists in Canada</i> (see rating scale for evaluations). c. The supervised practice period will include both direct and indirect supervision, including respectively, observations of direct client contact (i.e., diagnostics/assessment/testing and intervention/treatment/counselling), as well as review of written reports, charting, etc. Time spent in other profession related 		

	<p>activities (i.e., on-site research, writing, meetings, etc.) may also count towards the total hours required. The majority of the hours accrued during the placement should relate to client care, whether they are direct client contact hours or client related activities, and will vary dependent on the client population served, service delivery model utilized, etc.</p> <p>d. The amount of direct vs. indirect supervision required will be variable and dependent on client complexity, site, caseload, registrant skills, and experience, and should be adjusted to meet individualized placement needs. In order for the supervisor to evaluate the registrant’s skills and abilities, it is essential that adequate direct supervision takes place during the early stages of the placement. As a guide, a minimum of 50% combined direct and indirect supervision during the first week of the placement would not be uncommon, decreasing to a low of 5-10% of supervision during progressive weeks of the placement, depending on the registrant. A minimum of 25% overall supervision is suggested during evaluation weeks (mid-placement and final week of placement). It is generally expected that the amount of supervision will decrease over the duration of the placement, however, this is at the discretion of the supervisor based on the needs of the registrant.</p> <p>e. As per section 11(1) of the <i>SLP and Audiologist Profession Regulation</i>, all applicants seeking registration as regulated members must be sufficiently proficient in the English language to be able to provide professional services in English. In addition to evaluating knowledge and skills to practice the profession of speech-language pathology/ audiology, the supervisor must also evaluate the registrant’s ability to communicate effectively in English. Specifically, the registrant will be required to demonstrate that clients are able to understand and discriminate their verbal instructions. One of the ways this will be demonstrated is when the registrant provides verbal instructions, words, or phrases to a client, the client will be able to follow without difficulty. The registrant should also be able to comprehend questions and comments from clients which would be demonstrated by their ability to respond appropriately.</p> <p>f. Consistent with ACSLPA’s Standard of Practice 4.3 on Documentation and Information Management, indicator d. i and ii, “the name and professional designation of the person documenting information regarding the client (i.e., the supervisee) and the name and professional designation of the person taking professional responsibility for the work (i.e., the supervisor) must be documented in the client file. Formal documentation such as reports and letters may be written by the supervisee. The supervising SLP or audiologist should review the report, write or stamp their name, designation and that they have reviewed the report, and sign the report (e.g., this document has been read and reviewed by J. Jones, R.SLP/R.Aud).</p> <p>g. Additional requirements for direct reading and related activities may be imposed in discussion with the registrant.</p>
<p>Reporting:</p>	<p>The supervisor will complete a mid-point and a final evaluation using the accompanying forms. The supervisor will provide a copy and discuss the results with the registrant who is undergoing the supervised practice period, prior to submitting the completed report form to ACSLPA.</p> <p>Based on the recommendation of the supervisor, ACSLPA may extend the period of supervised practice.</p> <p>The mid-point evaluation is due:</p> <p>The final evaluation is due:</p>
<p>Agreement:</p>	<p>As the supervisee and placement supervisor, we agree to the following:</p> <ul style="list-style-type: none"> • We will work together to facilitate in-depth reflection on issues affecting practice, developing both personal and professional expertise.

- We will develop a learning plan that includes activities that allow the supervisee to develop and demonstrate competence in each area of the *Practice Competencies for Speech-Language Pathologists in Canada*. However, the supervisor reserves the right to revise the learning plan as required, based on availability of activities and evolving learning needs.
- We will both assume positive intentions and actively listen to one another.
- In addition to ongoing supervisory activities and interactions, we will meet every other week for a structured and reflective review of learning.
- We will protect the time and space for supervision by keeping to agreed appointments and time boundaries. During our meetings, we will respect privacy and avoid interruptions.
- We will work respectfully, mutually open to feedback about how we handle the supervision relationship

As a supervisee, I agree to:

- Successfully complete ACSLPA's jurisprudence modules and exam prior to embarking upon supervised practice. This will allow for an understanding of relevant Alberta legislation, regulations, and regulatory requirements prior to the commencement of practice in Alberta.
- Prepare for each of the supervised activities (i.e., read relevant background materials, prepare notes, etc. as required).
- Take responsibility for making effective use of the time.
- Contact my supervisor as soon as possible if I cannot attend due to illness or family emergency.
- Inform the supervisor of planned absences (i.e., doctor's appointment) as far in advance as possible.
- Be willing to learn, to develop my clinical competency, and be open to receiving support and feedback.
- Contact the ACSLPA Registrar (registrar@acslpa.ca) if I have concerns about my experience during the supervised practice period.

As a supervisor, I agree to:

- Offer advice, support, and supportive challenge to enable the supervisee to reflect in depth on issues affecting practice.
- Ensure that transparency, fairness, objectivity, and impartiality toward the supervisee are maintained during the supervised practice period.
- Ensure that the supervisee has full access to all learning activities as agreed upon in the learning plan.
- Contact the supervisee as soon as possible if I cannot attend due to illness or family emergency.
- Inform the supervisee of planned absences (i.e., doctor's appointment) as far in advance as possible and make every possible arrangement to ensure placement activities are not compromised.
- Attempt to manage any issues/concerns that may compromise successful completion of the period of supervised practice. However, if the issues/concerns cannot be resolved, I will notify ACSLPA of the situation.
- Complete and submit the required evaluation reports as described in Section 2.

Rating Scale

Please rate each sub-competency under “Progress to Date” using the rating scale outlined below. Be as honest and objective in your ratings as possible. A rating of “meets requirements with general guidance” or “does not meet requirements” on one or more sub-competencies does not necessarily imply unsuccessful completion of the supervised practice period. ACSLPA staff will follow up with supervisors where there are questions regarding supervised practice.

Meets Requirements (MR)	Meets Requirements with General Guidance (MR/G)	Does not Meet Requirements (DNMR)	Not Observed (NO)
Is independent, competent, and efficient for the majority of tasks in familiar/routine situations; sometimes requires extra time. Seeks guidance intermittently for more complex situations.	Requires general guidance (e.g., cueing) for some tasks and specific guidance (e.g., direction, modeling) for some tasks: requires extra time for many tasks. Participates in tasks across a mix of familiar/routine and complex situations.	Requires specific guidance (e.g., direction, modeling) and extra time for most tasks and general guidance (e.g., cueing) for some tasks. Participates in tasks in familiar/routine situations; is beginning to participate in complex situations.	No opportunity to observe the supervisee participating in these tasks during the evaluation period.

Evaluation of Practice Competencies (SLP):

1. Role of Expert

Speech-language pathologists apply their knowledge of the development and disorders of communication, as well as feeding and swallowing, together with their assessment and intervention skills to provide professional, client-centred care to individuals across the lifespan. Rating Scale

Please rate each sub-competency under “Progress to Date” using the rating scale outlined below. Be as honest and objective in your ratings as possible. A rating of “meets requirements with general guidance” or “does not meet requirements” on one or more sub-competencies does not necessarily imply unsuccessful completion of the supervised practice period. ACSLPA staff will follow up with supervisors where there are questions regarding supervised practice.

Meets Requirements (MR)	Meets Requirements with General Guidance (MR/G)	Does not Meet Requirements (DNMR)	Not Observed (NO)
